

Special Offer

1000 Gallon Premium Autogas Station

One of our distributors has two of these premium station systems complete and ready to ship and install. One is available immediately and the second in 15-20 days. These were special built for a customer who changed their plans for a larger capacity. Call for Price, but the distributor will accept offers. See special features below.

Features:

- Parafour P4-150, Dual product dispenser, ready for cylinder and Autogas hoses (hose kits available as option)
- 1000 gallon WC Trinity Purpose built Autogas tank, with all bottom valves on centerline for safety
- Three MEC internal valve system with MEC rotary actuators, all pneumatics completely plumbed and ready
- MEC fast clean strainer with lockable ball valve
- Corken FF150 with 3 phase 7.5hp premium TEFC motor
- All stainless steel ball valves
- Heavy seismic rated 2" square tube frame, primed and epoxy coated, ready for stand-alone installation
- Only need to be set in place and connect to electricity and air supply
