

## The Parafour Filtration System

The Parafour Filtration System covers your LPG filtration needs with ¾" and 1" for Autogas dispenser and cylinder fill cabinets, and 1-1/2" or 2" for bulk plants and large fueling stations. Available in both 10 micron particulate filtration and water absorbing (or both) The Parafour filtration solves the 2 main issues affecting meter life (PD, piston or mass flow), and downstream Autogas components components, especially fuel pumps and fuel injectors, both vapor and liquid phase. Easy to service and cost effective. All filters include a self-resetting filter change indicator, and a bottom drain valve.

### 10 Micro Particulate Filters

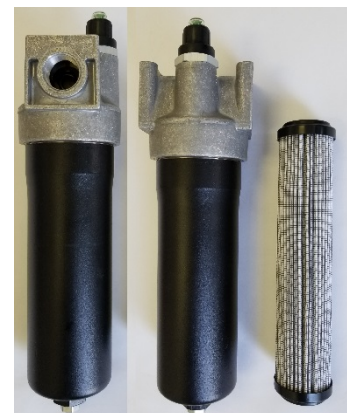

- P4-PF75 - ¾" fnpt Particulate Filter, 10 Micron
- P4-PF100 - 1" fnpt Particulate Filter, 10 Micron
- P4-PF150 - 1-1/2" fnpt Particulate Filter, 10 Micron
- P4-PF200 -2" fnpt Particulate Filter, 10 Micron
- P4-PF200F - 2" SAE Flange Particulate Filter, 10 Micron

### 20 Micro Water Absorbing Filters

- P4-PF75 - ¾" fnpt Water Absorbing Filter, 10 Micron
- P4-PF100 - 1" fnpt Water Absorbing Filter, 10 Micron
- P4-PF150 - 1-1/2" fnpt Water Absorbing Filter, 10 Micron
- P4-PF200 -2" fnpt Water Absorbing Filter, 10 Micron
- P4-PF200F - 2" SAE Flange Water Absorbing Filter, 10 Micron

### Dual Element Particulate With Upstream Water Absorbing Element

- P4-PFWA75 - ¾" fnpt Water Absorbing Filter, 10 Micron
- P4-PFWA100 - 1" fnpt Water Absorbing Filter, 10 Micron
- P4-PFWA150 - 1-1/2" fnpt Water Absorbing Filter, 10 Micron
- P4-PFWA200 -2" fnpt Water Absorbing Filter, 10 Micron
- P4-PFWA200F - 2" SAE Flange Water Absorbing Filter, 10 Micron
